Christopher Lake Public School

We believe:

At Christopher Lake Public School, we strive to create a place where every student feels a sense of belonging, feels valued, and is excited to learn. Through caring relationships, meaningful learning opportunities, and a connected community, every child is supported and challenged to reach their potential.

What our staff learning looks like

At Christopher Lake Public School, we believe that strong student learning begins with strong staff learning. Teachers work collaboratively by sharing ideas, reflecting on student learning, analyzing evidence, and then making informed instructional decisions. We continually learn, grow, and refine our teaching practices to respond to the diverse needs of our students.

What does excellence look like:

- Students who are engaged, curious, and excited to learn.
- Strong academic growth
- Caring relationships
- Students who are confident, resilient, and willing to take on challenges.
- Families, staff, and community members working together
- Learning experiences that are meaningful and connect students to the land and the world around them.
